COMPUTER AIDED REPAIR
SYSTEM FOR REPAIRING
ALL MAKES ELECTRONIC INJECTORS

Complete
Solution
to an
Impossible
Problem

Computer Aided Assembly System

No More Trial and Error

KO4000 CARS is the most advanced system to eliminate the trial and error in the electronic injector repair process.

System is capable to calculate adjustment shim thickness at each step with micron accuracy.

The control software displays the calculated adjustment shim thicknesses together with assembly instructions at each step of the repair.

Anyone
can
Repair...

KO4000 Computer Aided Assembly System gives the ability to assemble the injector once and for all, eliminating the trial and error procedure.
